UNP & University of Utah Health

UNP is building a closer relationship with the school district, the hospitals, the universities, the community boards, and other units in the West Valley.

Agenda

I. Building a Network

II. Cultivating Leadership

III. Enhancing Educational Pathways

IV. Fostering Community Capacity and Wellbeing

V. Partnering with West Valley

VI. Community Engaged Scholarship & Knowledge Sharing

VII. Conclusion

Background

UNP was launched in 2021 with the goal of getting 1 Million Dollar UNP grant from the state. This grant will allow us to launch a workforce development partnership that offers training, coaching, and other supports to help individuals launch businesses, create jobs, and more. UNP is collaborating with partners in the University of Utah School of Medicine, Salt Lake City, and the state to make this happen.

UNP wants to work with 50 of the state’s most underserved school districts to create a more equitable education system.

DEI Strategic Plan
